2016-2020
- KV AFS Avadi Chennai
X Std
Completed in 2016
- Army Public School, Faridkot Cantt, Punjab
X Std
Completed in 2014

About Me

I am an SDET-Java Tester with 1.5 yrs of experience. During this period I was part of the Mobile & Web Testing team. My major role was to test the components and fix the bugs present in the early development stage.

I also have an experience as a Front-end developer in the design, development, and maintenance of websites and web applications. I am proficient in HTML, CSS, Js, and also have a working knowledge of React.

Professional Experience

Systems Engineer | Infosys India Ltd
Mar, 2022 – Present

- Experience in designing and creating automation frameworks using Java, Selenium WebDriver, Rest Assured, Junit, TestNG, Maven, and Jenkins.
- Experience in Creating, Modifying, and Maintaining new and existing Automation Frameworks.
- Experience in API Service Level testing for web services enhanced the Test harness and developed many Test suites using XML and JSON.
- Experience in writing moderate SQL queries for data validation.
- Experience in the Preparation of Test Execution Reports, Defect Reports, and Test Summary reports.
- Experience in Webservice testing using SOAP UI and Rest Assured

Technical Associate | Tech Mahindra
Jun, 2021 – Mar, 2022

- Responsible for testing the software application and troubleshooting and conducting regular tests and maintenance to ensure the smooth workflow.
